No-Needle Mesotherapy

Product Name:

BOTO PEPTIDE/ANTI-WRINKLE BOOSTER

General Product View:

It is a natural Botox (Botox like) product. This natural peptide is not only safe and non-toxic, but also it has a significant penetration through the skin and affects dermal fibroblasts and also reduces subcutaneous muscle contractions and makes them relax which prevents new skin wrinkles formation in the face, It also reduces previous wrinkles depth. This Botox-like substance is applicable everywhere on the face which is decreasing the visible effects of aging by preventing and reducing the formation of facial expression lines, reducing the deep wrinkles around forehead and eyes and smoothing fine lines out. It is also effective in stimulation collagen synthesis, skin moisturizing, skin radiance and muscle relaxing.

Ingredients:
