

Product Name:

Hydro-Meso Repair Plus

Tri-Action Repair: Hydrate, Protect, Rebuild

Dry, Sensitive, Dehydrated & Stressed Skin

Product Overview

Hydro-Meso Repair Plus Clinical Serum is an innovative **tri-action formulation** manufactured using **Cold Process technology**. With its **precisely adjusted pH (6.0-6.5)** and absence of soap-based emulsifiers, this product is specifically engineered for **severely dry, sensitive, dehydrated, and stressed skin**. The advanced formulation delivers a comprehensive approach that simultaneously performs three key functions: **immediate deep hydration, long-term cellular protection, and active skin barrier reconstruction**. By creating a unique "**therapeutic triangle**", this serum not only addresses skin concerns but also reinforces the skin's inherent ability to maintain health and moisture.

Benefits on Skin

- **Intelligent Triple-Layer Hydration:** Creation of a "**Hydration Therapeutic Triangle**" combining Hyaluronic Acid (immediate absorption), Trehalose (long-term locking), and Niacinamide (structural reinforcement)
- **Integrated Protection & Repair:** Cellular protection against environmental stressors with simultaneous barrier repair
- **Reduced Inflammation & Redness:** Powerful calming effect on sensitive and reactive skin post-invasive treatments
- **Improved Elasticity & Suppleness:** Enhanced resilience and reduction of fine lines caused by dehydration
- **Skin Barrier Restoration:** Strengthening of natural protective layer to prevent moisture loss
- **Potent Antioxidant Action:** Combatting free radicals and premature aging factors
- **Non-Comedogenic:** Won't clog pores, perfectly suitable for even the most sensitive skin types

Key Active Ingredients & Their Synergy

Hyaluronic Acid (The Hydration Initiator)

- **Concentration:** Optimized for multi-layer penetration
- **Function:** Absorbs and retains up to 1000 times its weight in water
- **Role in Triangle:** Provides immediate and deep moisture to various skin layers

Trehalose (The Cellular Protector & Moisture Lock)

- **Function:** Forms an intelligent protective film on the skin
- **Mechanism:** Protects cells from dryness and stress + prevents moisture evaporation
- **Role in Triangle:** Preserves absorbed moisture and creates a defensive shield

Niacinamide (The Barrier Reinforcer)

- **Function:** Increases ceramide synthesis and strengthens intercellular matrix
- **Benefits:** Improves skin barrier structure + evens skin tone + reduces inflammation
- **Role in Triangle:** Enhances skin's intrinsic moisture retention capability

How to Use

A) Daily Use for Routine Care: 1.Cleanse skin with a gentle cleanser and pat dry gently with a soft towel. 2.Dispense 3-4 drops of serum onto palms. 3.Gently massage onto face, neck, and décolletage. 4.Use outward motions from the center of the face for better absorption. 5.Use morning and evening. 6.Wait 2 minutes before applying moisturizer or sunscreen.

B) Post-Clinical Treatment Protocol:

Immediately after treatment: Apply a thin layer to treated area. •**First 48 hours:** Reapply every 4-6 hours. •**First week:** Continue 3 times daily.

•**Applications:** Fractional laser, microneedling, chemical peels, RF, IPL

C) Intensive Hydration Mask (1-2 times weekly): •Apply a generous amount of serum to clean skin. •Leave for 15-20 minutes. •Gently massage excess serum with clean hands.

Precautions

- Avoid direct contact with eyes.
- Discontinue use if any sensitivity, burning, or unusual redness occurs and consult a physician.
- Perform a **patch test** on a small area behind the ear or forearm for 24 hours before full-face application.
- Consult with a physician before use during **pregnancy and lactation**.
- **Keep out of reach of children.**
- Consult a dermatologist before use if you have **open wounds, active infections, or specific skin conditions**.

Storage Instructions

- Store at stable room temperature (18-25°C).
- **Avoid direct sunlight** and heat sources.
- Keep in a cool, dry place, preferably inside a cabinet.
- **Tightly close the cap after each use.**
- **Period after opening: 6 months**
