

Product Name:

Lumina Kojic Radiance

Intensive Dark Spot Correcting Serum

Hyperpigmentation, Dark Spots, Uneven Tone & Dull Skin

Product Overview

Lumina Kojic Radiance is a potent brightening treatment gel that targets stubborn dark spots, melasma, uneven tone and dullness. Formulated with 10% Glycolic Acid, 1% Kojic Acid and 2% Alpha-Arbutin at optimized pH, it delivers visible radiance and clarity with a soothing system for comfortable use.

Benefits on Skin

- **Visibly fades dark spots and hyperpigmentation .**
- **Brightens and evens skin tone.**
- **Improves dullness and boosts glow .**
- **Fades dark spots and melasma safely.**
- **Smooths texture, Helps reduce post-acne marks.**

Key Active Ingredients

- **Glycolic Acid 10%:** Powerful resurfacing AHA.
- **Kojic Acid 1%:** Potent melanin inhibitor.
- **Alpha-Arbutin 2%:** Complementary brightener.
- **Bisabolol & Allantoin:** Soothing agents.
- **Betaine & Glycerin:** Hydration support.

Synergistic Brightening Technology Glycolic renews the surface, Kojic and Alpha-Arbutin target pigment, while soothing agents keep the formula tolerable.

HOME CARE PROTOCOL:

- 1. Preparation:** Cleanse skin and pat dry.
- 2. Application:** Apply a thin layer over the face or specifically on dark spots using fingertips.
- 3. Duration:** Leave on for 15 to 20 minutes. (Do NOT leave overnight).
- 4. Sensation:** Mild tingling is normal.
- 5. Removal:** Rinse thoroughly with cool water..
- 6. Post-Care:** Apply a hydrating moisturizer immediately.
- 7. Frequency:** Use 1 to 2 times per week.
- 8. Sun Protection:** Must use sunscreen the next morning.

PROFESSIONAL CLINIC PROTOCOL:

Use Phase: Use as an "Exfoliating Mask" or "Pre-Treatment" step.

Step 1 (Prep): Cleanse and degrease the skin thoroughly. Apply a barrier cream to sensitive areas (corners of eyes, nose, lips).

Step 2 (Application): Using a fan brush or applicator, apply a thin, even layer to the affected areas or full face.

Step 3 (Activation):

- o **First Treatment:** Leave on for 2–4 minutes.
- o **Subsequent Treatments:** Increase time to 5–7 minutes based on tolerance.
- o Monitor closely for frosting or intense stinging. Neutralize immediately if observed..

Step 4 (Neutralization): Remove with cold water and neutralize. Ensure all acid is deactivated.

Step 5 (Post-Care): Apply a calming, hydrating serum and a high-protection SPF 50+.

Step 6 (Frequency): Once every 10–14 days.

Storage Instructions:

- Store in a cool, dry place below 18°C / 70°F. Keep away from direct sunlight. Use within 12 months after opening.

Safety & Quality Assurance:

- Dermatologist-inspired & stability tested.
- pH 3.5–3.8 (optimal for acid efficacy).
- Cruelty-free, Fragrance-free, Paraben-free.
- Microbial & heavy metal tested.
